## Porto Santo The Island of Firsts

Porto Santo holds a unique place in history as the first island of the Madeira archipelago to be discovered. In 1418, Portuguese navigators João Gonçalves Zarco and Tristão Vaz Teixeira, under the service of Prince D. Henrique “The Navigator”, stumbled upon Porto Santo during a storm, marking the beginning of the Age of Discovery.

This moment occurred a year before the neighboring island of Madeira was found in 1419, making Porto Santo the first step in unveiling this Atlantic treasure.

Geologically, Porto Santo is much older than Madeira. While Porto Santo was formed over 14 million years ago, Madeira’s volcanic origins date back approximately 5 million years. The island’s rugged features and iconic sands reflect its ancient natural history.

Porto Santo’s rich history and ancient origins blend seamlessly with its serene beauty, offering a destination where time seems to stand still, inviting visitors to explore and reflect on the stories etched into its landscape.

### Connecting Madeira and Porto Santo

#### Fly Above the Atlantic

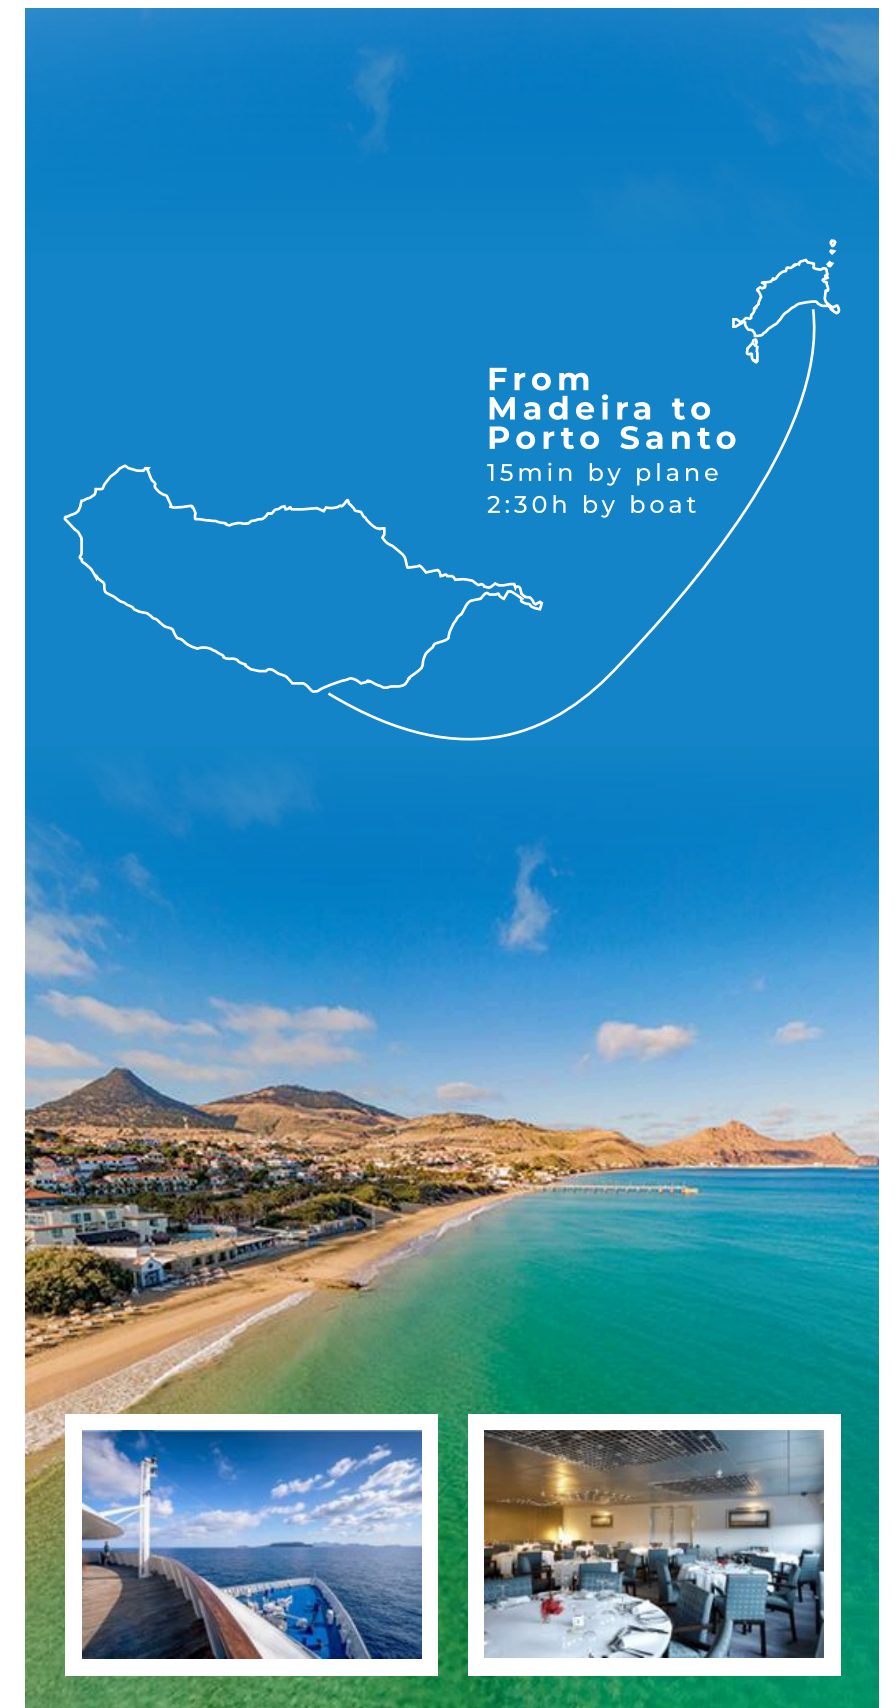

Depart from the CR7 International Airport with Binter Airlines for a **swift 15-minute flight**. This efficient option lets you transition effortlessly between islands, maximizing your time to explore and unwind.

#### Cruise in Style

For an elevated experience, **upgrade to first-class seating** and enjoy an atmosphere of exclusive comfort and privacy. Relax in a sophisticated lounge with panoramic windows that frame Madeira’s dramatic coastline and Porto Santo’s iconic golden sands. Let the gentle rhythm of the waves set the tone for your island retreat as you sip a refreshing drink or unwind in plush surroundings.

On your return journey, take your experience to the next level by dining at Coral e Algas, the ferry’s elegant onboard restaurant. Reflect on your unforgettable adventure as you indulge in delicious flavors and impeccable service.
